Altium Designer 17 元件库编辑

找了网上很多资料都是关于AD中自建元件库的,但是极少有资料教授如何对已有元件库内元件的编辑和修改,今天遇到了这个问题,写一篇日志记录这个问题,希望对各位有所帮助

扒元件库

1. 打开想要扒的库,找到对应projects下的文件

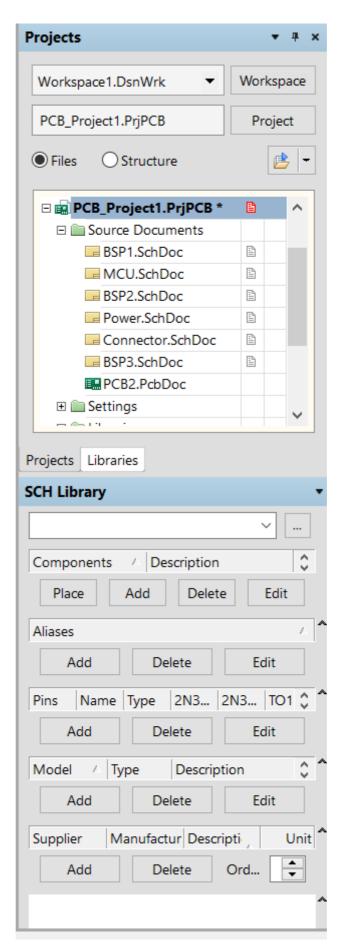

2. 随便点开一个子原理图

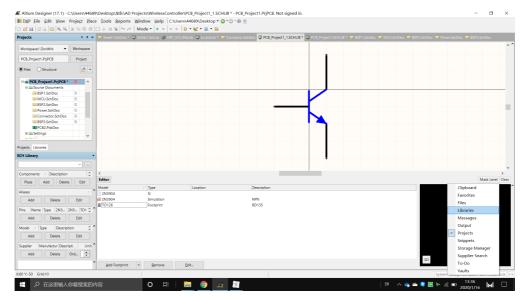

找到Make Schematic Library,点击进入

4. 确认完后应该会报告找到多少个元件, 确定

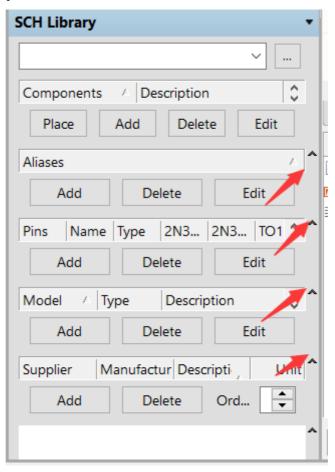

找到SCH Library,如果找不到请看右下角

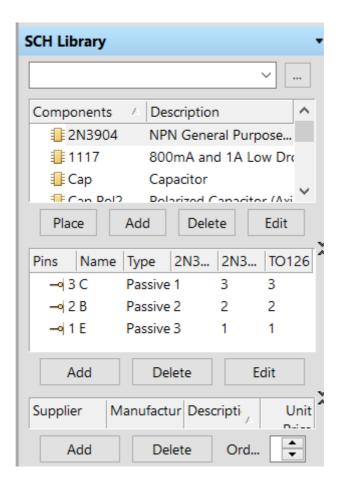

6. 此时SCH Library里一片空白,是因为各个选项挡住了

7.

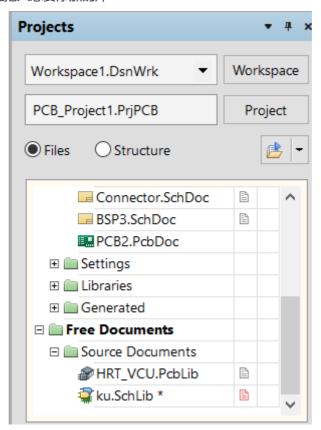

将下面的选项收进,就能找到收集的封装

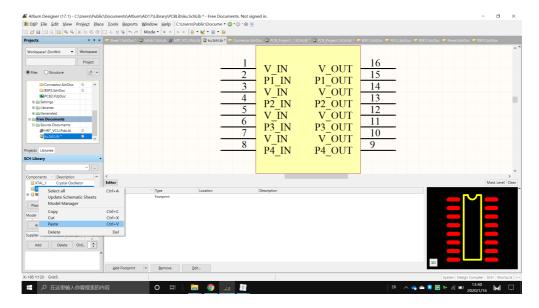

如图所示

- 9. 对想要的封装右键, 复制
- 10. 继续在Library里拖入想要添加的库

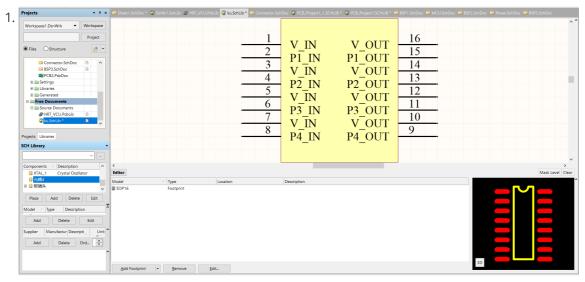

11. 选中后,在SCH Library里粘贴
